

# GEORGE WASHINGTON WINS GOLF AT CHEVY CHASE

## HATCHETS WIN FROM MARYLANDERS

Had Little Trouble Taking Game From Visitors.

## CARR PITCHED EFFECTIVELY

Stevenson's Throwing to Bases and Heavy Hitting of Locals the Features.

George Washington had no difficulty in defeating the Western Maryland team yesterday afternoon, on University Field, by 10 to 5. The game was void of features. The Buff and Blue secured a good lead in the first inning, and at the end of the fourth it led down Carr Showed Improvement.

Carr was on the rubber for George Washington. He showed great improvement, allowing but one pass, and giving five scattered hits, three of which were scratches. Stevenson caught well, and threw to bases much better than heretofore.

All of the outfielders had a holiday, not a single fly going into the far gardens. Orrison played his first game at third, and did very well. Price's error was not costly, and, on the whole, the infield performed in good shape. Hitting Was Timely.

Price led off with a hit past third. Bradley laid down a sacrifice, Baldwin to Rainer. Price went to third on the hit and scored when Rainer threw to the grandstand to head him off. Weber was hit with a pitched ball and stole second. Senior hit for two bases, scoring Weber. Campbell's single scored Senior, and Campbell made the circuit by a lot of careless work by the infielders. In the second, Price singled to right with one down, and stole second, going to third on a passed ball. Bradley hit to right for two bases, scoring Price. Price struck out, and Senior fled out to Higgins.

In the fourth, Price was safe on Rainer's error. Bradley bunted to Hank, and Rainer muffed his throw. Weber bunted, and Hank threw poorly to first. Price scored from second base. After Senior went out on a pop fly to Cooling, Stevenson hit for two bases, scoring Weber. Bradley, in the eighth the Hatchettes made two more bunting hits.

The visitors' first score came in the second. Cooling hit a hot one over the right field fence for two bases. Adkins struck out, and Cooling stole second. Stevenson's throw went over Rainer's head, but was stopped by Price, who, by a quick throw, caught Cooling at the plate. Captain Higgins claimed that the score should count under the ground rule of an extra base on an overthrow, and after some wrangling it was allowed. All the other runs were due to listless playing by the locals.

### Three Victories This Week.

George Washington had a clean slate this week, winning three games. The Buff and Blue supporters are greatly pleased with the improvement in the team, and several hundred students will march over to Georgetown next Saturday to see the big game between George Washington and the West End College.

The Score:

G. Wash.	RHOAE	W. Md.	RHOAE
Price, ss.	2	Short, ss.	0
Bradley, 1b.	1	Adkins, 1b.	0
Weber, 2b.	2	Higgins, 2b.	0
Senior, 3b.	1	Cooling, c.	1
Campbell, 3b.	2	Adkins, 3b.	0
Stevenson, 3b.	2	Kearney, cf.	1
Senior, 3b.	1	Baldwin, 3b.	0
Price, 3b.	0	Rainer, 3b.	1
Carr, p.	0	Hanks, p.	1
Totals.	10	Totals.	5

George Washington, 4; Western Maryland, 0. First base by errors—Western Maryland, 4; George Washington, 4. Left on bases—George Washington, 5; Western Maryland, 4. First base on balls—Off Carr, 1; off Hanks, 4. Struck out—By Carr, 7; by Hanks, 6. Two-base hits—Senior, Stevenson, Bradley, Campbell, Cooling. Sacrifice hits—Bradley, 2; Weber, 1. Sacrifice bunts—Weber, 1; Rainer, 1; Stevenson, 2; and Rainer, 1. Hit by Hank, 2. Foul balls—Carr, 1; Hanks, 2. Umpire—Mr. Cauldwell. Time of game—1 hour and 50 minutes.

## ACTIVE BEYOND THE DEAD LINE.

Look around the world today, and see what some of the men who have long passed the "dead line" are doing, and what they have accomplished, and what they are doing now. Joseph Chamberlain, O. S. Marden, in Success Magazine, look at the young old military leaders in little Japan who conquered great Russia. Oystera was twenty years past this fatal line when he won his great victories, and all of his corps commanders were past fifty. The Marquis de Itto, the grand old man of Japan, was the greatest statesman, and the one who has Japan what it is today, still active in the service of his country.

Look at Diaz, President of the Mexican Republic. Much of his best years has been done since he was sixty. The Emperor of Austria, one of the greatest statesmen of the world, is now seventy-eight, and the one who has Japan what it is today, still active in the service of his country.

The leaders, the men of the greatest influence in our United States Senate, have worn gray hairs for a quarter of a century. Senator Morgan of Alabama, eighty-four years old, recently made one of the strongest and most vigorous speeches on the Panama canal question, that he has ever made.

Joseph Chamberlain, nearly seventy years of age, is still the most brilliant statesman in England. He was sixty-seven when he initiated his plan for fiscal reform. President Eliot, of Harvard University, everything considered, has perhaps been the greatest university president of his day, and nearly all of his greatest work in the world, their crossed the line of the comparatively "useless age." His mind is still strong, alert, and ready.

Charles Hazlett, consulting engineer of the city of New York, over fifty-five years of age, works in his office every day at drawing plans and the most intricate work. He is such an efficient worker that he has been held in office by every administration, Republican and Democratic alike, for over a quarter of a century.

From Julia Ward Howe, in her eighties, to Sara Bernhardt, in her sixties, women workers in all fields of endeavor might be cited by hundreds who are doing great work in the world, their very best, though they have long passed the "dead line." Sara Bernhardt during this season has achieved as brilliant successes as she did twenty years ago—she positively refuses to grow old, and is one of the most active members of the great Wanamaker firm. In fact, judging from the abundance of his ideas, his creative ability and freshness of view, he is one of the youngest men in the whole institution.

Marshall Field was really in the prime of his manhood when he was stricken with pneumonia at seventy-one, and by far the most important part of his remarkable career came after he had passed the half century mark.

## CRACK BASEBALL TEAM OF THE NAVAL ACADEMY

Left to right, lower row—Goldthwaite, left field; Needham, pitcher; Theobald (captain), third base; Gill, shortstop; Symington, catcher. Top row—Thebault, center field; Van Auker, pitcher; Bacon, second base; Stiles, first base; Cohen, left field; Hamsch, catcher. In background—McKittrick (manager), Dr. White (Coach).

## MISPLAYS HELP MIDDIES TO WIN

Fifteen Errors Made Bucknell Look Foolish.

## BATTING WAS ABOUT EVEN

Navy Got Two Homers and Six Assorted Hits; Losers Also Knocked Four-Sacker.

ANNAPOLIS, Md., April 28.—Bucknell did not play nearly so good a game against the Midshipmen today as it did against St. John's yesterday, and was defeated by a score of 11 to 2.

For the first five innings, Leech was effective, and the contest was fine, but in the sixth, seventh, and eighth innings, Leech was not only hit hard, but the team behind him played miserably and piled up during the game fifteen errors in all. Of these, infielders got eight.

### Batting Honors Even.

The teams were about equal in batting. The Midshipmen got eight hits, which included home runs by Cohen and Thebault. Bucknell got nine, including Parsons's home run and Sheehan's two-bagger.

The Score:

Bucknell	RHOAE	Navy	RHOAE
Bucknell, ss.	0	Gill, ss.	0
Parsons, 1b.	1	Cohen, 1b.	2
Sheehan, 2b.	1	Thebault, 2b.	2
Leech, 3b.	1	Thebault, 3b.	2
Nipple, 3b.	0	Needham, p.	1
August, cf.	1	Sheehan, cf.	0
Rine, 1b.	1	Stiles, 1b.	0
Oliend, 1b.	0	Bacon, 2b.	1
Totals.	3	Totals.	11

Two-base hit—Sheehan. Home runs—Parsons, Thebault, and Cohen. Sacrifice hits—Needham. Bases on balls—Off Leech, 3. Wild pitches—Needham. Struck out—By Needham, 4; by Leech, 2. Left on bases—Navy, 7; Bucknell, 7. Umpire—Horne, of Washington.

## GOLD PRODUCTION.

Figures gathered by the Financial Chronicle, of this city, show that the world's production of gold is still steadily mounting. Each of the last three calendar years has seen a new record made. Up 1902 the highest annual output had been 15,250,263 ounces—valued at \$314,620,233. That record had been broken in 1903, the year before the Boer war suspended operations in the Transvaal. In 1902, the Transvaal region again began to produce, and the output reached 18,778,015 ounces—valued at \$376,462,811. In 1904 it rose to 18,739,445 ounces—valued at \$346,034,521. In 1905 a still greater advance has been registered, the output reaching 18,214,119 ounces—valued at \$376,462,811. Since 1896 the world's annual gold production has virtually doubled.—New York Tribune.

## PLACES FOR HOMES.

The population of the world 100 years ago was estimated at 800,000,000; today it is estimated at 1,000,000,000. In other words, the growth of the world's population during the past century has been equal to its accumulated growth during the previous century. If this ratio of increase shall be continuous, the new population of the globe will find its home, not in the densely populated districts of Europe, but in the sparsely settled countries of North and South America. The development of these countries is due to the trade with the Orient, as well as with Europe, will pay tribute to the Panama canal.—Geographic Magazine.

## THE NEWEST MEDICAL FAD.

One of the newest fads of the medical world is the sleep cure. According to the physician who has sought to introduce this cure entirely too little. It is his argument that one lives a certain length of time, and that this time (sickness not considered) is extended over a long or short period, according to the temperament of the person. He cites in support of his theory the longevity of the negroes, and declares that they attain a ripe old age simply because they sleep when work is not absolutely essential. His treatment consists of sending the patient to bed and making him sleep. Eight hours a day one may leave his bed and mingle with the world as he pleases, but not only must the other sixteen be spent in bed, but the patient must actually be asleep.—Dundee Advertiser.

## FATHER OF BRIGHT SON AT AGE OF EIGHTY-FOUR

Doctors Said School Commissioner Thirty Would Die of Consumption Fifty Years Ago.

NEW YORK, April 28.—At the age of eighty-four years, School Commissioner John H. Thiry, of Long Island City, is the father of a healthy baby boy, born this morning. The child is a lusty youngster, and has been kicking up his little heels in lively style all day.

Dr. L. H. Taylor, who helped usher the young fellow into the world, says he never saw a healthier baby.

The proud father is the same Mr. Thiry who was pronounced dying of consumption, nearly fifty years ago. All the doctors who told him he had only a few months to live have been dead a long time.

This is not the first child of Commissioner Thiry's old age. His son Francis was born about the time Mr. Thiry was celebrating his eighty-second birthday, and little Henrietta, the youngest daughter, came into the world after her father's eightieth year.

"I'm a young man yet," Mr. Thiry told his friends when they congratulated him on Henrietta's arrival four years ago. "No race suicide for me. By the time I grow old I want to have several children around to brighten my declining years."

Mrs. Thiry, the youthful mother, is doing well. This is her third child. She was married to Mr. Thiry nine years ago, and is now thirty years of age. Before her marriage she was Margaret O'Connor.

## CHINCHILLA SKINS.

The chinchilla, so much prized for its beautiful, silken, light-gray fur, is found only in the Cordillera ranges of the Andes, in Bolivia and Chile, says the Technical World Magazine for May. It is a small animal which burrows in the ground, and in appearance somewhat resembles a rat.

In recent years so great has been the demand for this fur that the animals have been hunted to extinction. They are captured in various ways; but the most common method is to hunt them with dogs, the fox terrier being the most useful and skillful for this purpose.

The shipping season covers the months of January and July; and the product both of Chile and of Bolivia is exported mainly from the port of Coquimbo, Chile. From this port, 144,000 skins were shipped last year, the majority of which came to the United States. The price realized being almost double those paid the year previous.

A protective law establishing a close guard over the chinchilla was passed by the Chilean congress; but on account of the natural habitat of the chinchilla in the Andes, and the fact that it is difficult to detect and convict violators of the law, it seems probable that this valuable fur-producing animal is destined to early extinction.

## NATIONS DEEP IN DEBT.

The foreign debt of Colombia has been in existence for eighty-three years, during approximately forty-seven of which no interest was paid, says the Monthly Review. The corresponding figures for Guatemala, Honduras, and Venezuela, respectively, are seventy-eight and forty-eight, seventy-eight and seventy-two, and eighty-three and forty-one.

Costa Rica and Nicaragua have benefited by intervals during which they owed nothing to the foreign bondholders. Nevertheless the external debt of the first has been in default for thirty years, and of the second for twenty years. Nicaragua paid nothing for forty-nine years out of sixty-six.

Salvador neglected her share of the old debt of the Central American federation from 1827 to 1880. With the exception of a single lapse her subsequent record is good, and she has the happy position of having no regular foreign debt.

Santo Domingo began her financial connection with the outside world by a loan issued in 1869. She has since then long ago paid in default for about twenty-two years.

Some two years ago Colombia issued from a protracted civil war. She has since lost Panama while the expenses of the war were met by the short-sighted expedient of issuing forced currency. As a result she now finds herself saddled with a debt in notes reaching the enormous total of nearly \$50,000,000.

At one time the rate of exchange for the paper dollar touched 25,000 per cent. But by legislative enactment the parity between gold and paper was fixed not at 10,000 per cent.

## LONG ISLANDERS OPPOSE VANDERBILT CUP RACE

Protective Association Trying to Prevent Automobile Contest Over Nassau Course—Sentiment Divided.

MINEOLA, L. I., April 28.—That the committee in charge of the Vanderbilt Cup contest will not have plain sailing if it attempts to hold the race over the Nassau course this year is made apparent by the plans now being formed by the People's Protective Association. This association, which last year proved so antagonistic to the affair, even going so far as to procure an injunction from the courts, will again try to block the promotion of the big automobile fixture. Stronger influences will be brought to bear, it is said, in order to have the contest stopped than was the case in 1905.

Sentiment as to holding the race in Nassau county seems to be divided. Many of the citizens outside of the Protective Association are in favor of the contest, believing it to be a boon to the people generally. A petition circulated recently, favoring the race, was signed by over 1,500 persons. When informed that the petition had received so many signatures W. K. Vanderbilt, Jr., expressed considerable satisfaction over the outcome and said that he believed it more than likely that the race would be held over the Nassau course.

## CAPITAL CANOEISTS MEET ON WEDNESDAY

Will Discuss Plans for Coming Season. Has Leased Old Y. M. C. A. Site on Broadwater.

The Capital Canoe Club will hold its next meeting in the office of G. G. Hamner, 600 Thirtieth street northwest, on Wednesday, May 2, at 8 p. m. Any one desiring to join should attend, and all interested in canoeing are most cordially invited to be present.

The club has taken over the lease of nearly three acres of the most picturesque land on the Broadwater, which was formerly held by the Y. M. C. A. Canoe and Boat Club. The work on the place is being pushed as rapidly as circumstances will permit, and it being the policy of the club to make this a permanent camp, accommodations will be prepared for one hundred members.

Small pieces of the camp are to be rented to individual members or groups of members, who desire to have a private place on the camp. There are at present over twenty-five members in the club, and as the membership is limited to 100, applications should be made as early as possible to J. A. Lord, 1726 G street northwest.

## President John Fason and Secretary Gorman, of the American Automobile Association, will be in New York early this week.

On Tuesday the officers of the A. A. A. will take up their new headquarters in the Metropolitan life building, in New York.

## Good Dressers

Will be interested in the excellent showing of

Spring and Summer Clothing for Men

that we are now exhibiting. The famous "House of Kuppenheimer" and other makers of high-class garments are represented.

I. GROSNER Outfitter to Men 1013 Pennsylvania Ave.

## Remarkable Golf Match Won by Morven Thompson

Eighteen Extra Holes Necessary Before He Could Beat Cleve Harrison In at Chevy Chase—Successful Tournament.

In what was one of the most remarkable finishes of any golf tournament ever played over the Chevy Chase course or any other course in this country Morven Thompson beat Cleve Harrison in the final round for the President's Cup yesterday afternoon, one up in thirty-six holes.

The remarkable part was not that he was one up in thirty-six holes, but that while the match was for only eighteen holes, it took eighteen more to decide it.

Two Extra Rounds. Thompson and Harrison were even up at the end of the first eighteen. The play for the President's cup was handicapped match play. Thompson was handicapped at eight and Harrison at six, or Harrison gave Thompson two strokes in eighteen holes, one stroke in nine. In order to play off the tie, therefore, and to give Thompson the benefit of the handicap it was necessary to play at least nine more holes.

Nine holes were played and the match was still even up which necessitated still another nine holes. And it was on this last round that Thompson pulled out one up and took the match. If they had finished even up again yet another nine holes would have been necessary. As it was, a new record in tournament play was established for the club.

### Both in Rare Form.

Both Thompson and Harrison played extremely good golf, and as the score indicates, there was little to choose between their games. Both drove strongly, and on approaching and on the greens both were clever.

The day was ideal for golf, and for the gallery. A large crowd followed the contestants over the last round, although the shadows grew long before the final green was reached, and it was after 7 p. m. when the match was finished. The greens were hard and fast and the fair green hard enough to give good distance to the balls.

In the first nine holes of the play-off Thompson was two down at the seventh

hole. Harrison had only to halve the next hole to take the match, but Thompson pulled himself together, and won both the eighth and ninth, making them all even again.

### Excellent Golf.

At the fourteenth hole they were still even up. Thompson took the fifteenth. The sixteenth was halved. On the next hole Harrison made one of the prettiest plays of the day. His drive took him behind the trees and his second took him into the trees. He was well out on the third. He took an iron on the fourth and laid the ball dead to the hole. It struck the iron flagpole and lay almost on the rim, giving Harrison the hole in five, which was the best Thompson could do. This hole is 442 yards.

There was still a chance that Harrison might even things up again by taking the eighteenth hole, but it was halved in four, and Thompson took the match. The play had been close throughout and stimples played an important part in the result of several of the holes.

### Won Another Prize.

Thompson played strong, consistent golf, through the whole day. In the semi-finals in the morning he returned his best score, an 80. It was this score that gave him another cup besides the President's cup, a cup put up by S. C. Briggs for match play against par golf. His handicap of eight made him one up against Mr. Alexander Britton took the second prize in this competition. He was two down at the bar. In the afternoon Thompson put an 81 and an 82.

The morning was given up to the semi-final round. Thompson was paired with D. Lewis and Harrison with S. R. Knutt. Lewis is a good golfer, but was outclassed by Thompson, who finished 5 up and 4 to Knutt. Harrison beat Knutt 4 up and 3 to go.

The President's Cup, a handsome piece of silver, which is offered anew each year to the person who wins the permanent property of the man winning it. The competition finished yesterday for the cup has been one of the most successful ever held and brought out a lot of good golf. There were more than thirty entries in the tournament.

## GIANTS MADE IT FOUR STRAIGHT

Those Phillies Outclassed All the Time.

## BROOKLYN—SAME OLD STORY

Was Easy for Boston—Pirates Had Fun With St. Louis—Chicago Blanked Cincinnati.

NEW YORK, April 28.—The World's Champions batted Nichols freely this afternoon, and as a result won their fourth straight victory from the Philadelphia Nationals. The visitors were at all times outclassed. Score by innings:

R.H.E.

Philadelphia	R	H	E
Philadelphia	0	0	0
New York	0	0	0
Nichols	0	0	0
Umpire—Emile and Corway. Time—1 hour and 50 minutes. Attendance—12,230.			

BOSTON, April 28.—Adding the Brooklyn Nationals down to one hit today young Cy Young gave a remarkable exhibition of pitching, and in consequence the Brooklyn were shut out. Score by innings:

R.H.E.

Brooklyn	R	H	E
Brooklyn	0	0	0
Boston	0	0	0
McIntyre	0	0	0
Umpire—Emile and Corway. Time—1 hour and 40 minutes. Attendance—6,500.			

PITTSBURGH, April 28.—St. Louis was easy picking for the home club today, the Pittsburgh team winning in easy fashion by a score of 12 to 4, and incidentally fattening their batting averages to the extent of thirteen safeties. The score:

R.H.E.

Pittsburgh	R	H	E
Pittsburgh	12	12	4
St. Louis	4	12	4
Batteries—Leifield and Pletzer. Hoelskoetter, Holmes and Grady. Time—1 hour and 25 minutes. Umpire—Johnstone. Attendance, 8,625.			

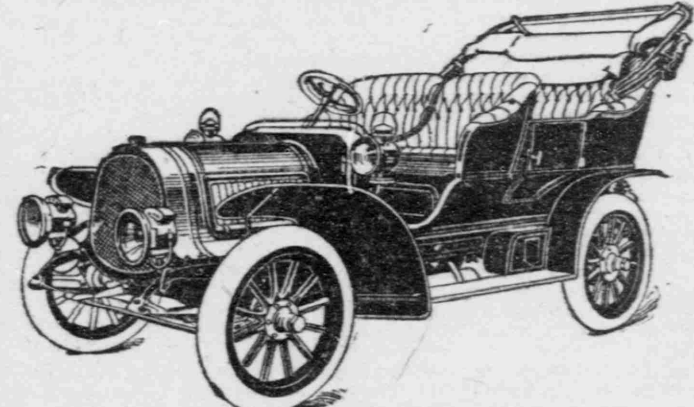

CHICAGO, April 28.—The Cubs defeated Cincinnati today in a tight game, their only run coming in the ninth inning. Score:

R.H.E.

Chicago	R	H	E
Chicago	1	1	1
Cincinnati	0	0	0
Batteries—Brown and Evers; Young and Needham. Umpire—O'Day. Time—1 hour and 40 minutes. Attendance, 7,290.			

## The First Car at \$2500.00 That Will Climb All the Hills And then do Fifty Miles an Hour on the Level

### Carrying Five Passengers

POPE-HARTFORD 20-25 H. P. MODEL F, \$2500

Four Cylinders, Vertical, Water Cooled. All gears encased. High compression. Ignition, jump spark. Sliding gear transmission, three speeds forward and reverse. Direct bevel gear drive. Brakes of internal expanding type. Speed 5 to 50 miles an hour on the high gear. Seats five comfortably.

the most crucial test of the power (and power means speed), strength and staunchness that an automobile can be subjected to. And note carefully this significant point, Pope-Hartford, Model F, is the only car selling as low as \$2500.00 that can climb all the hills and then do 50 miles an hour on the level carrying five passengers. The Pope-Hartford is the "price wonder" of the automobile world. Let us demonstrate to you that the

## POPE-HARTFORD

will do all of the above things—and more. Let us show you that it is the one car under \$3000 that can be driven behind a team walking, or up to its maximum of over 50 miles an hour on the high gear.

For over twenty-eight years—twenty-eight years—the making and marketing of mechanical vehicles has been the special business of the Pope Mfg. Co., and the Pope-Hartford embodies every good feature of all these years of experience.

When you buy a Pope-Hartford you are getting a car that has absolute and complete interchangeability of parts. This enables you to get parts quickly, accurately and without the unwarranted and enormous expense incurred in ordering parts for cars not having this very desirable feature. Get an early demonstration.

## More and More Pope-Waverley Electric's The Most Popular Automobile in Washington

It's a significant fact that Pope-Waverley Automobiles are the principal electric cars you see on Washington's streets.

Business men are using this handy car more and more. Doctors like it because of its ever-ready efficiency, and the ladies are most enthusiastic of all.

### BETWEEN HOME AND OFFICE

Most men who can afford to use more than one motor car own a Pope-Waverley electric. There is no bother about this car. Without cranking, oiling, or even soiling the gloves it starts right off in any weather. It is always simple, ready and safe.

It is the Best Connecting Link Between Home and Office

Price of Pope-Waverley Electric, with top and side fenders, \$1025 (24 cell batteries). With 30-cell batteries, \$1200.

## Pope Manufacturing Co.

Washington Branch: 817-19 Fourteenth Street
